

Project Design Phase-I
Proposed Solution

Date	19 September 2022
Team ID	PNT2022TMID38272
Project Name	Project - Nutrition assistant application

Proposed Solution Template:

S.No.	Parameter	Description
1.	Problem Statement (Problem to be solved)	Iron is the most common nutritional deficiency, with approximately 2 billion people worldwide affected.
2.	Idea / Solution description	The most common consequence of iron deficiency is anemia, in which the number of your red blood cells and your blood's ability to carry oxygen drops.
3.	Novelty / Uniqueness	We will show a food with how much of iron.
4.	Social Impact / Customer Satisfaction	Iron deficiency can have devastating impacts on the livelihoods and health of women and children.
5.	Business Model (Revenue Model)	Carbohydrates, fat and protein are macronutrients and need to be consumed in large quantities for energy production.
6.	Scalability of the Solution	Take iron tablets with vitamin C
